Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 December 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1 - 5, 13 - 18 is/are pending in the application.

DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed on December 20, 2004 has been received and entered in the case.

Claim Objections

2. Claim 4 is objected to because of the following informalities:

On line 4, "semiconductor device" should be --semiconductor element--.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the

Art Unit: 2815

reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 4 and 5 are rejected under 35 U.S.C. 102(e) as being anticipated by Kuribayashi et al. (U. S. Pat. No. 6,429,387).

Regarding claim 4, Kuribayashi et al. discloses in e.g., Fig. 9, Fig. 13A and Fig. 14B a semiconductor device comprising:

- a semiconductor element (5b; column 12, line 47) having a plurality of electrodes (5c; column 12, line 48);
- a redistribution layer (5a) having a plurality of conductive patterns (5g) which connect the electrodes of the semiconductor element to a plurality of electrode pads (6) each of the electrode pads having a first shape and a first size and located at predetermined positions on the redistribution layer; and
- at least one mark member (30; column 11, lines 25 – 28 and Fig. 9) with a second shape and a second size (see Fig. 9) which serves as an alignment mark (column 11, lines 25 – 28) located in a predetermined positional relationship with the metal pads (see Fig. 9),
- wherein the mark member is made of the same material with the electrode pads (Since the mark member 30 and the metal post 6 are simultaneously formed by printing, plating or the like, the mark member 30 and the metal post 6 are made by the same material; column 11, lines 47 – 50); and

Art Unit: 2815

- wherein the first shape and the first size are correspondingly different from the second shape and the second size (see Fig. 9);
- wherein the plurality of electrode pads have a flat top surface (see Fig. 4B).

Regarding claim 5, Kuribayashi et al. discloses in e.g., Fig. 9 and column 12, lines 63 – 66 the alignment mark having an outer configuration other than a circle (see Fig. 9).

Allowable Subject Matter

5. Claims 13 is allowed (see Office action mailed on November 5, 2003 for the examiner's statement of reasons for allowance).

6. 1 – 3 and 14 – 18 are allowed.

7. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest, either singularly or in combination, at least external connection electrodes contacting the respective metal posts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

8. Applicant's arguments with respect to claims 4 and 5 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chris C. Chu whose telephone number is 571-272-1724. The examiner can normally be reached on 11:30 - 8:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Thomas can be reached on 517-272-1664. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
